ABSTRACT

Authors who wish to contribute a paper to The Tenth Structural Engineering Convention 2016 (SEC-2016) are requested to submit their extended abstracts (not more than 700 words) online in electronic form. The extended abstract should not simply be a long abstract. It should contain briefly the research contribution of the paper, brief key results in the form of either graph or table, comparisons to related work(if relevant) and also one or two highly relevant references. The abstract should be submitted in Microsoft-Word file in A4 page format. Abstracts will be reviewed by the technical committee, and the acceptance of abstracts will be notified on SEC2016 web site.

Once the extended abstract is accepted, authors need to submit a 6-page manuscript. The name of the presenting author needs to be underlined.
